

**RUSTINGTON PARISH COUNCIL**  
**EMERGENCY PLANNING COMMITTEE**

**MINUTES:** of the Meeting held on 18 August 2025

**PRESENT:** Councillors J Bennett, Mrs C Broomfield, M Broomfield and J Ceiriog-Hughes

**In attendance:** Councillor Ms Maria Revell, Mrs C Ward (Clerk of the Council) and Ms R Costan (Deputy Clerk)

---

**1/25      ELECTION OF CHAIRMAN**

It was proposed that Councillor Ceiriog-Hughes be elected Chairman of the Committee for the ensuing year.

The Committee RESOLVED that Councillor Ceiriog-Hughes be elected Chairman for the ensuing year.

**2/25      ELECTION OF VICE-CHAIRMAN**

It was proposed that Councillor Mrs Broomfield be elected Vice-Chairman of the Committee for the ensuing year.

The Committee RESOLVED that Councillor Mrs Broomfield be elected Vice-Chairman for the ensuing year.

**3/25      APOLOGIES FOR ABSENCE**

Apologies for absence were received from Councillors Cooper (Personal), Mrs Cooper (Personal), Grevett (Personal), Mrs Gregory (previously approved Leave of Absence) and Lee (Holiday). These apologies were accepted by the Committee.

**4/25      DECLARATIONS OF INTEREST**

There were no declarations of interest recorded by Members.

**5/25      MINUTES**

The Minutes of the Meeting held on 19 August 2024 were signed by the Chairman as a correct record.

**6/25      REVIEW OF EMERGENCY PLAN**

The Clerk referred to Minute 6/24 and said that she had previously circulated the Plan that had been updated to include a number of proposed amendments/additions. She said that the Plan also included a redacted copy of the Arun District Council Emergency Planning Winter Management Plan incorporating the West Sussex County Council Winter Service Plan.

Following a discussion, the Committee AGREED that subject to the aforementioned amendments/additions, no further revisions needed to be made to the Emergency Plan at the present time.

A copy of the amended Plan is attached and forms a part of these Minutes.

It was also RECOMMENDED that the next review of the Plan should take place in twelve months' time.

**7/25      DATE OF NEXT MEETING**

It was AGREED that the next Meeting should be held in August or September 2026 on a date to be agreed by the Council when it approved its Meeting Dates for 2026 later in the year.

**There being no further business the Meeting concluded at 5.34 pm.**

**Chairman: ..... Date: .....**

## Introduction

An emergency/major incident is any event or circumstance (happening with or without warning) that causes or threatens death or injury, disruption to the community, or damage to property or to the environment on such a scale that the effect cannot be dealt with by the emergency services, District and County Councils and other organisations, as part of their normal day-to-day activities.

Although there is no statutory responsibilities for Parish Councils and communities to plan for, respond to, or recover from emergencies, it is good practice to identify hazards and make simple plans on how they could respond to them.

## Aim

To increase resilience within the local community through developing a robust co-ordinated approach that compliments the plans of responding agencies.

## Objectives

- Identify the risks to the community and relevant response actions
- Identify vulnerable people / groups in the community
- Identify capacity and resources in the community available to assist during an emergency
- Provide key contact details for the Parish Council's Emergency Planning Committee, Key Community Resources, the Emergency Services, District and County Councils

## Activation Procedure

A guideline activation procedure can be found in **Annex A**. This procedure details the call out order, communicating of information to the community and logging of actions.

## Emergency Planning Committee

The Emergency Planning Committee coordinates the Parish Council's response to any emergency situation that may develop. This includes, but is not limited to ensuring that vulnerable people are cared for, promoting self help to householders, etc. It is also responsible for keeping the plan up to date. In the event of the Plan being triggered, the following have agreed to be part of the Emergency Team:

Role	Name	Tel	Mobile	Address
Chairman	Cllr J Ceiriog-Hughes		07709 245 357	Migin 49 Oakcroft Gardens Littlehampton BN17 6LT
Vice-Chairman	Cllr Mrs C Broomfield	01903 786420		34 Woodlands Avenue Rustington BN16 3HB
Clerk	Carole Ward		07752 493 539	
Committee Member	Cllr J Bennett		07507 873 537	34 Woodlands Avenue Rustington BN16 3HB
Committee Member	Cllr M Broomfield	01903 786420		34 Woodlands Avenue Rustington BN16 3HB
Committee Member	Cllr Mrs A Cooper		07753 573 838	27 Preston Paddock Rustington BN16 2AA
Committee Member	Cllr A Cooper		07793 372 543	27 Preston Paddock Rustington BN16 2AA
Committee Member	Cllr Mrs P Gregory	01903 772769		18 Broadmark Lane Rustington BN16 2HJ
Committee Member	Cllr R Grevett	01903 776780		Mill House 3 Overstrand Avenue Rustington BN16 2JS
Committee Member	Cllr G Lee	01903 786420		34 Woodlands Avenue Rustington BN16 3HB
Deputy Clerk	Rosie Costan		07752 493 539	34 Woodlands Avenue Rustington BN16 3HB

## Meeting Venue

The Emergency Planning Committee will usually need to meet during an emergency and agree what is to be done. The following locations have been identified:

Venue		How to access
The Woodlands Centre		The Clerk and Deputy Clerk are key holders. If the emergency prevents their attendance contact should be made with Keith Anscombe, the Council's Security Contractor.
The Samuel Wickens Centre		As Above

**The Emergency Planning Committee Chairman and Clerk of the Council should:**

- Oversee the completion and updating of the Emergency Plan.
- Ensure that the Plan is regularly reviewed and updated.
- Report annually to the Community detailing if the Plan has been activated and highlighting any membership changes to the Emergency Planning Committee.
- Act as a focal point for the community in the response to an emergency
- Act as the main contact point with Emergency Services and the District and County Councils and ensure that two-way communication is maintained.
- Ensure that the appropriate authorities and individuals are notified.
- Communicate important messages to the community.
- Activate resources as required.

Tasks should be delegated to Committee Members as appropriate. The Clerk of the Council should ensure that all Committee Members are engaged in the planning and response processes.

**All Members of the Emergency Planning Committee should:**

- Reside in the community.
- Have good local knowledge.
- Be able to activate the support of the community and speak on behalf of the community.
- Ensure that the vulnerable are provided with additional assurances during an emergency.
- Ensure that communications are maintained within the community and with the Emergency Services/District and County Councils.
- Ensure that Confidentiality is maintained where necessary.
- Maintain an action log, with reasons recorded of why action taken, in the event of an emergency.
- Create a 'grab bag' containing the plan and any appropriate clothing / equipment which may be required.
- Have sufficient knowledge of the plan to act as Chairman/ Clerk of the Council in their absence.

The Committee Chairman and other Members should support the Clerk of the Council in carrying out their role.

## Key Information

The Annexes of this plan provide areas to record key information to plan for and use in the event of an emergency.

- Annex A – Emergency Action Check List & Template Logging Sheet
- Annex B – Key Contact list (Publicly available)
- Annex C – Risk Assessments (Identifying risks to the Community)
- Annex D – Community Capacity & Resources
- Annex E – Household Emergency Plan
- Annex F – Communications
- Annex G – Maps of the Community
- Annex H – Plan Distribution

Restricted Distribution

- Annex R1 – Key Contacts (Not for general distribution)
- Annex R2 – Vulnerable Groups within the Community.

## Plan Maintenance

The Emergency Planning Committee should meet to discuss the community's resilience on at least an annual basis.

A full review of the Plan by the Emergency Planning Committee should be carried out annually to ensure that the contact numbers are still correct. When issuing updated pages of the Plan it is important to ensure the removed pages are returned as this will help ensure that all the Plans are correctly updated.

## Annex A – Emergency Action Check List

Action		Complete
1	Dial <b>999</b> and ensure the emergency services are aware of the emergency and follow any advice given.	
2	Gather as much information about the situation as possible: <ul style="list-style-type: none"> <li>• Location of emergency</li> <li>• Type of incident</li> <li>• Number of people/properties involved</li> <li>• Type of support which might be needed</li> <li>• Make contact with any of the responding organisations at the scene.</li> </ul>	
3	Any Member of the Parish Council/Emergency Committee might be notified of an incident by the Local Authority or residents. They should lead the initial incident response and also contact the Clerk/Deputy Clerk asap to activate the Emergency Plan.	
4	Contact and inform other Members of the Emergency Planning Committee, the District and/or County Council.	
5	Begin recording details on the Log Sheet overleaf including: <ul style="list-style-type: none"> <li>• Any decisions you have made and why.</li> <li>• Actions taken.</li> <li>• Who you spoke to and what you said. (Including contact numbers)</li> <li>• Any information received.</li> </ul>	
6	If necessary, call a Committee Meeting, but ensure the venue is safe and people can get there safely	
7	Arrange for key contacts identified in Annex B to be made available as necessary	
8	Tell the community that the Emergency Team is active. Communicate warning information messages. Publicise the key telephone number to contact during the Emergency	
9	Make sure you take notes and record actions from the Meeting. If a decision is reached to activate the Emergency Plan ensure that Steps 1 - 8 above are carried out.	

**Under no circumstances should you put yourself or others at risk to fulfil these tasks.**

## Logging Sheet

It is important to record all information during an emergency. Completing a logging sheet is an easy way to ensure information is not lost. It can also help support / justify any decisions made or actions taken.

Date	Time	Information / Decision / Action	Initials

## Annex B – Key Contacts List

E.g. Emergency Services, Health Organisations, Town / Parish / District / County Councils, Water Company, Gas, Doctors, Highways, Environment Agency, Schools etc.

## Annex C – Risk Assessments

When assessing the risks in the community the likelihood and the impact of the event should be considered. Many of the risks will be planned for at a national / Regional / County or District level. Therefore the risk assessments should consider how the community could respond to ensure the community's safety / wellbeing.

Risk / Hazard	Possible Actions
Sustained Loss of Critical Utilities - Gas, Electricity, Water	<ul style="list-style-type: none"> <li>• Communication of updates with residents as they are received - See <b>Annex F</b></li> <li>• Opening and offer of Rest Centre to residents affected if required</li> <li>• Assist with road closures, traffic management if appropriate e.g. burst water main.</li> <li>• Encouragement of residents to have a Home Emergency Plan prior to any emergency</li> </ul>
Severe Weather – Ice & Snow	<ul style="list-style-type: none"> <li>• Link to ADC and WSCC Winter Management Plans - See <b>Annex J</b></li> <li>• Enact RPC Winter Management Plan</li> <li>• Communication of updates with residents as they are received - See <b>Annex F</b></li> <li>• Encourage residents to check on neighbours</li> <li>• Opening and offer of Rest Centre to residents affected if required</li> <li>• Assist with road closures, traffic management if appropriate e.g. road blocked by snow.</li> <li>• Encouragement of residents to have a Home Emergency Plan prior to any emergency</li> </ul>
Severe Weather – Heat Waves	<ul style="list-style-type: none"> <li>• Communication of updates with residents as they are received - See <b>Annex F</b></li> <li>• Liaise with schools, GP Surgeries etc to establish whether there are key messages to be shared with residents</li> <li>• Encourage residents to check on neighbours</li> <li>• Encouragement of residents to have a Home Emergency Plan prior to any emergency</li> </ul>
Severe Weather – Flash Flooding	<ul style="list-style-type: none"> <li>• Communication of updates with residents as they are received - See <b>Annex F</b></li> <li>• Opening and offer of Rest Centre to residents affected if required</li> <li>• Contact WSCC Fire Service for assistance</li> <li>• Assist with road closures, traffic management if appropriate</li> <li>• If key service is affected e.g. a school - contact to advise to hold back children/staff from leaving/arriving</li> <li>• Encouragement of residents to have a Home Emergency Plan prior to any emergency</li> </ul>

## Annex D – Community Capacity & Resources

Key resources available to support the local community should be listed here.  
E.g. Community Centre, Defibrillators.

Resource	Contact / Key Holder	Conditions of use	Emergency Contact Number
The Woodlands Centre 34 Woodlands Avenue	Rustington Parish Council 01903 786420 07752 493539	In the event of a local emergency	07752 493539
Rustington Youth Centre 34 Woodlands Avenue	Rustington Parish Council 01903 786420 07752 493539	In the event of a local emergency	07752 493539
Samuel Wickens Centre, Broadmark Lane Car park	Rustington Parish Council 01903 788479 07752 493539	In the event of a local emergency	07752 493539

Rustington Library, Claigmar Road	01903 785857	In the event of a local emergency	

St Peter & St Paul Parish Church Hall, The Street	01903 850509	In the event of a local emergency	[REDACTED]
Methodist Church Hall, Claigmar Road	01903 776900	In the event of a local emergency	[REDACTED]
Rustington Guide Hall	[REDACTED]	In the event of a local emergency	[REDACTED]
Rustington Scout Hall, Church Road	[REDACTED]	In the event of a local emergency	

## **DEFIBRILLATORS** are available for Public use at:

All are affixed to the external walls

- Churchill Car Park Public Toilets (behind Iceland and The Factory Shop)
- The Quill Rustington, Woodlands Avenue
- Rustington Scout Hall, Church Road
- The southern end of Sea Avenue (affixed to a resident's garden wall)
- Beach Shelter (Junction of Sea Road/Sea Lane and facing away from the sea)
- Blind Veterans UK - Rustington Centre of Wellbeing, Broadmark Lane/Beach, Pavilion Terrace building (facing sea)
- The Samuel Wickens Centre, Broadmark Lane Carpark, Broadmark Lane
- The Woodlands Centre, Woodlands Recreation Ground, Woodlands Avenue

Further DEFIBRILLATORS can also be accessed from inside

- Rustington Sports and Social Club, Jubilee Avenue  
(Woodlands Recreation Ground)

## **Annex E – Householders Self Help**

Further copies of the Household Emergency Plan can be downloaded from the following government website and distributed to families in the Parish:

[www.ready.gov/make-a-plan](http://www.ready.gov/make-a-plan)

## HOUSEHOLD EMERGENCY PLAN

**Emergencies can affect the county  
with little or no notice.**

Being prepared can help reduce the effects on your life and your loved ones; reduce the need for support from others and enable you to support the vulnerable in your community.

Disruption to essential services such as water, gas and electricity, regional and national travel and telecommunications are all ways an emergency can affect our everyday lives.

**A crisis happens when we least expect it.**

**GO IN. STAY IN. TUNE IN.**

[www.westsussex.gov.uk/emergency](http://www.westsussex.gov.uk/emergency)

If you are not involved in an emergency but are close by or believe you may be in danger, in most cases the advice is:

## GO IN. STAY IN. TUNE IN.

Station	Frequency	Website
BBC Sussex	104.8 & 95.3 FM	<a href="http://www.bbc.co.uk/bbcsussex">www.bbc.co.uk/bbcsussex</a>
Heart	97.5 & 96.7 FM 1	<a href="http://www.heart.co.uk/sussex">www.heart.co.uk/sussex</a>

### Creating an emergency box/bag

**Be prepared.** Creating an emergency grab bag will help locate essential equipment quickly in an emergency. For ideas on what to include in your grab bag visit our website page entitled "What you can do to prepare for an emergency". Some suggested items are:

Torch and spare batteries	tick	First Aid kit	tick
Battery powered radio and spare batteries	<input type="checkbox"/>	List of useful contact numbers	<input type="checkbox"/>
Candles / matches	<input type="checkbox"/>	Toiletries	<input type="checkbox"/>
Copy of this plan	<input type="checkbox"/>		

In case you are unable to leave the house it is suggested you should have:

Bottled water	tick
Ready to eat food (tinned)	<input type="checkbox"/>
Bottle/tin opener	<input type="checkbox"/>

In case you are stuck in your car it is suggested you should have:

Blankets	tick
Torch and spare batteries	<input type="checkbox"/>

**Location of where emergency box/bag is kept**

### List of current medication

Medication name	Dose	When taken	Who takes it

Once completed it would be advised to laminate and then store in a safe

**Complete the following sections and keep it in a safe place where all in your household can easily access it**

**Household contact details**

Name

Mobile

Work

If you are evacuated is there somewhere we can go? Friends or family?

Name

Mobile

Work

If you can't contact each other, where should you meet / or who should you leave a message with?

Name

Mobile

Work

Who will be responsible for picking up the children from school? (if applicable.)

**Emergency telephone numbers**

Emergency services

NHS out-of-hours

Police non-urgent   
Local Police Station

Power cut

Local authority

Doctor

School

Other

**Important documentation and information**

Insurance company name

Insurance phone number

Home insurance

Policy number

Other (Please list)

place, e.g. upstairs (if available) and provide a copy to family or friends.

## Have you turned off the following? Who is responsible?

	tick	Where are these utilities located at your property?
Gas	<input type="checkbox"/>	
Electricity	<input type="checkbox"/>	
Water	<input type="checkbox"/>	

If you are in a position where you are able to offer help to your community start by checking that your neighbours are alright.

Name	Address	Telephone	Mobile

# Annex I - Draft Emergency Meeting Agenda

<b><u>Proposed Emergency Meeting Agenda</u></b>						
Date:						
Time:						
Location:						
Attendees:						
1. What is the current situation:						
Location (full details of address):						
Description of Incident:						
Any threat to life:	Yes	No	If yes, contact the emergency services immediately on 999			
No. of <b>people</b> affected by incident:	Adults	Children	List all known Hazardous substances below (e.g. gas cylinders, hazardous chemicals etc.)			
Of these how many are vulnerable?	Adults	Children				
What <b>resources</b> do we need?	Food	Yes/No	Blankets	Yes/No	Off-road vehicles	Yes/No
	Other	Yes/No	List additional resources needed			
	<b><u>Details</u></b>		<b><u>Actions to be taken</u></b>		<b><u>Lead Person</u></b>	
2. Establishing contact with the emergency services						
3. How can we support the emergency services						
4. What actions can safely be taken						
5. Any other issues						

## Annex J – RUSTINGTON PARISH COUNCIL

### 2025/2026 WINTER MANAGEMENT PLAN

#### 1. Co-ordinators of local resources during adverse weather conditions:-

<p>Mrs Carole Ward Clerk of the Council</p> <p>Rosie Costan Deputy Clerk of the Council</p> <p>Rustington Parish Council Council Offices 34 Woodlands Avenue Rustington BN16 3HB</p> <p>Tel: 01903 786420 Mob: 07752 493539</p> <p>Email: caroleward@rustington- pc.gov.uk rosiecostan@rustington- pc.gov.uk</p>	<p>Mr Jim Burch Leisure and Amenities Officer</p> <p>Rustington Parish Council Council Offices 34 Woodlands Avenue Rustington BN16 3HB</p> <p>Tel: 01903 786420 Mob: [REDACTED]</p> <p>Email: jimburch@rustington- pc.gov.uk</p>	<p>Cllr Andy Cooper Chairman</p> <p>27 Preston Paddock Rustington BN16 2AA</p> <p>Tel: 01903 786420 Mob: 07793 372543</p> <p>Email: cllr.andycooper@rustington- pc.gov.uk</p>
--	--	---

#### 2. Volunteers and Contractors to assist with any snow/ice clearance:-

<p>Mr Courtenay Luscombe Ferring Nurseries Littlehampton Road (A259) Ferring BN12 6PN</p> <p>Tel: 01903 241122 Mob: [REDACTED]</p> <p>Email: <a href="mailto:office@ferringnurseries.co.uk">office@ferringnurseries.co.uk</a></p>	
---	--

### 3. Areas to be cleared by Council Personnel and Contractors:-

External Areas - Public Toilets - Churchill Parade, The Street, Broadmark Lane and The Woodlands Centre
External Area - Entrances to Council Offices and The Woodlands Centre
Car Park and Footpaths around Recreation Ground, The Woodlands Centre
External Area - Entrances to The Samuel Wickens Centre and Paved Area of Garden.

### 4. Point of Contact for West Sussex County Council and Arun District Council:-

Winter Service Duty Manager West Sussex County Council  Tel: 01243 642105  Email: <a href="mailto:Highways.southern@westsussex.gov.uk">Highways.southern@westsussex.gov.uk</a>	Michael Rowland Emergency Planning Officer Arun District Council  Mob: 07733 125 714  Email: <a href="mailto:Michael.Rowland@arun.gov.uk">Michael.Rowland@arun.gov.uk</a>  24 Hour Emergency Number:-  Tel: 01903 737500 (24 hour switchboard)

## 1 Introduction

### 1.1 Background

The Council's *Winter Management Plan* provides guidance to the Council in order that it can meet its responsibilities to provide a safe environment around its buildings and carry out its usual activities.

Service managers are responsible for providing safe access to their own premises and those premises they are responsible for using the service teams' staff and contractors as available. Services such as facilities management, car park operations, housing management and outdoor services are likely to initiate clearance and manage some response and precautions of their own assets.

Response in and around the East of the Arun district, i.e. Littlehampton and environs shall be carried out by services' staff and services' contractors based in that part of the district, e.g. waste collection contractors. For Contractors details see [Appendix 11: Contact Details](#).

Similarly, response in the West of the Arun district shall be by services staff and contractors who are based in the West, e.g. Greenspace and their grounds maintenance contractor.

Some overlap of effort and resources by the same team to both East and West will occur naturally e.g. by Tivoli Services to sheltered housing in the East and West of the district.

This plan is designed to be used on its own. Other ADC and Sussex Resilience Forum plans and documents are listed in [Appendix 1: Other Plans and Documents](#).

References and useful links are listed in [Appendix 2: References and Useful Links](#).

The Council's plans referred to in this document are available on ResilienceDirect and the Council's Intranet.

### 1.2 Historic Data

Year	Days of snow >15 mm depth	Days with frost requiring highways gritting
2008/09	6	36
2009/10	9	41
2010/11	9	46
2011/12	5	30
2012/13	6	39
2013/14	0	20
2014/15	0	18
2015/16	0	15
<b>Average</b>	<b>4 days</b>	<b>30 days</b>

Met Office records since 2018 – snow fall more than 2cm in Bognor Regis	
Date	Snow depth (cm)
27/02/2018	2
02/03/2018	4
03/03/2018	3
01/02/2019	3

### 1.3 Aim

The aim of this plan is to provide a framework by which the Council can respond to and manage ice and snow conditions.

### 1.4 Objectives

The objectives of this plan are to:

- explain the activation process and authority to activate
- explain how the plan will be implemented
- define the roles and responsibilities of the Council staff engaged in an emergency response
- provide practical guidelines
- identify associated plans and supporting information

### 1.5 Scope

The plan provides guidance to the Council to deal with incidents of snow and ice that may affect the provision of Council services, and the users of Council owned and managed property. It does not impart a responsibility to other agencies to respond to snow.

### 1.6 District Council roles and responsibilities

The Council has the following responsibilities in relation to incidents of very cold weather:

- the safety and welfare of Arun staff by ensuring safe access to its buildings and land. This may be achieved by salting footpaths to provide safe access to the Council's buildings
- the safety and welfare of vulnerable people that Arun DC has direct responsibility for. For example, people housed in sheltered accommodation or people who sleep 'rough'
- to deliver priority services to the community, such as waste collection
- the delivery of other services to the community such as the maintenance of the car parks

### 1.7 Litigation

The Ministry of Justice has stated "*The prospects of a person who volunteers to clear snow from a pavement being successfully sued for damages by a person who subsequently slips on the cleared area and is injured are very small*".

A snow-clearer does have a duty to clear with reasonable care so as not to create a new and worse risk.

If snow or ice is to be cleared:

#### **Do**

- clear ice and snow as soon as possible and before they are compacted
- move snow to a porous surface such as a grass verge or soil
- spread salt/grit evenly and at the appropriate spread rates
- clear any excess salt or grit once the snow/ ice has melted

#### **Do not**

- use water to melt snow and ice as there is a risk it will refreeze
- move snow to a location where it will create another risk such as another part of the pavement, road or where people are likely to walk
- use excessive salt, grit or other materials that would create a new or worse risk once the snow/ice has melted

## **2 Activation of the plan**

### **2.1 Authority to activate**

Activation of this plan is the responsibility of the Emergency Planning Officer or Group Head of Environment and Climate Change. In their absence it can be activated by any officer of Group Head level or above.

### **2.2 Plan triggers**

The triggers for implementation of this plan are:

- A Met Office forecast or actual snowfall to a depth exceeding 15mm within the Arun district
- A Met Office forecast or actual temperature below minus three degrees centigrade within the Arun district

During holiday periods such as the Christmas, New Year break and at weekends the Emergency Planning Officer should, if possible, seek approval from the Group Head of Environment and Climate Change to call out staff and contractors as indicated in this plan.

Severe weather alerts are publicly available from the Met Office web site. All service area managers with a role in this plan should subscribe to the Met Office's weather warning service to receive notification by email or text:

<https://service.govdelivery.com/accounts/UKMETOFFICE/subscriber/new>

WSCC Highways Winter maintenance daily decision notification updates are through the Twitter account:

[https://twitter.com/WSHighways?ref\\_src=twsrc%5Egoogle%7Ctwcamp%5Eserp%7Ctwgr%5Eauthor](https://twitter.com/WSHighways?ref_src=twsrc%5Egoogle%7Ctwcamp%5Eserp%7Ctwgr%5Eauthor) ; e-mail notification will only be issued when a significant snow event is forecast. General enquiries to WSCC Highways at [highways@westsussex.gov.uk](mailto:highways@westsussex.gov.uk),

01243 642105.

## 2.3 Activation process

Once the decision to activate the emergency plan, either in **part** or **full**, has been taken the Emergency Planning Officer or Group Head of Environment and Climate Change will inform the following posts:

- Joe Russell-Wells – Group Head of **Environment** and Climate Change
- Richard Tomkinson - Group Head of **Housing, Wellbeing & Communities**
- Oliver Handson - Environmental Services & Strategy Manager
- James Jones-McFarland - **Parks and Cemeteries** Manager
- Paula Elliot - Community Parks **Officer**
- Sam Horwill – **Property & Estates** Facilities Manager
- Lisa Emmens – **Parking Service** Manager

## 3 Response phase

### 3.1 Salt spreading

#### Spread rates

The amount of salt needed to be applied to a surface varies depending on the forecasted temperature and conditions. 20 grams of salt /m<sup>2</sup> is enough to thaw footpaths unless there is thickly compacted snow or ice. 1 tonne bag of salt covers over 4k of 6m wide carriageway or 12k of 2m wide footway.

20 grams/m<sup>2</sup> of salt is a very small amount. There is no need for a lot of salt to protect a footway, use it sparingly spreading the salt evenly. Over salting is damaging to the environment and a waste of a limited resource. Salt bin or bulk bags may not be replenished if salt stocks are critical.

Typically, 10 grams of salt (about half a cup full) should be adequate to treat a square metre of road or path surface as a precautionary treatment when surface temperatures are forecast to fall between 0°C and -2 °C and ice or hoar frost is anticipated.

20 grams of salt should be adequate to treat a square metre of road surface as a precautionary treatment when surface temperature is forecast to fall below -2 °C and ice, or hoarfrost is anticipated (freezing moist air).

40 grams of salt should be adequate to treat a square metre of road surface as a precautionary treatment when snow is forecast.

For information about salt stocks see [Appendix 10: Salt Stocks](#).

### 3.2 Car parks

All the car parks (locations listed in [Appendix 4: Car Park Locations and Salting Rates](#)) are to be included when the *Winter Management Plan* is activated and are to be treated by MH Kennedy & Son Ltd. For contractors details see [Appendix 11: Contact Details](#). A prioritised list of the car parks is provided in [Appendix 3: Car Park Salting Priorities](#)

See Appendices 3, 4 & 5 for the location of the car parks and plans of the areas to be treated in the priority one car parks. Parking Services hold bagged salt in salt bins at the car parks.

### 3.3 Access to the Council's waste collection depot

Providing an uninterrupted waste collection service is a Council priority which requires access to the Depot in Fort Road East. See location plan at [Appendix 7: Waste Collection Depot and Amenity Tip Plans](#).

WSCC Highways has agreed to include the access road to the waste collection contractor's depot in their priority road network and treat the access road with grit.

### 3.4 Council residential sheltered housing

Locations and addresses are listed at [Appendix 6: Housing Service Properties](#). Parks' contractor Tivoli Services will assist with providing safe access to sheltered housing. For Contractors details see [Appendix 11: Contact Details](#). A subsequent priority is access to other Council housing outside stair access and paths.

### 3.5 Council responsibility to rough sleepers

Arun District Council Housing service may have a responsibility to provide people sleeping rough during wintry conditions with temporary accommodation. For the winter conditions which activate these responsibilities and the procedures for providing winter shelter for rough sleepers refer to Housing services.

### 3.6 Other priorities

Attendance to the following will only be made if resources permit:

- roads, steep hills, tight bends, locations where surface water commonly

- accumulates
- vehicle access routes to key facilities such as the access roads to the Council's waste management contractor
- town main shopping street
- footpaths and other priorities including high use pedestrian paths, steep pedestrian paths and pedestrian access routes to key facilities such as health clinics, schools, residential homes and access to vulnerable peoples' accommodation.

### 3.7 Response East of the District

The following areas will be treated as indicated:

- **Council's housing stock** and sheltered housing. This will be the responsibility of Housing management supported by Tivoli Services. For Contractors details see [Appendix 11: Contact Details](#).
- **Civic Centre:** See [Appendix 8: BRTN and Civic Centre Paths and Other Areas](#). This will be the responsibility of Facilities management and Tivoli Services. The office superintendents are asked to check the safety of access to the Civic Centre and to respond appropriately by advising line managers, warning staff and taking appropriate action to make safe access. The adjacent public pavements, staff and public access paths within the building curtilage and the car park at the back (north side) of the Civic Centre should be gritted by office superintendents and supported by Tivoli Services
- Access to the **Waste Collection Depot**. WSCC Highways have included the access road to the Council's waste collection contractor's depot at Harwood Road as part of the WSCC Highways priority road network for gritting. Additional support may be available from the waste collection contractor's staff supported by Council's teams and contractors as available.

### 3.8 Response West of the District

- **Bognor Regis Town Hall** See [Appendix 8: BRTN and Civic Centre Paths and Other Areas](#).
  - Gritting by Tivoli Services of the immediate staff and public access pavements including the road and pavements within the War Memorial. For Contractors details see [Appendix 11: Contact Details](#).
- **Fitzleet multi-storey car park.** See [Appendix 5: Priority 1 Car Park Locations and Areas to Be Treated](#)
  - Fitzleet multi-storey car park ramps are to be attended to by Car Park service arrangements with support if necessary.
- **Sheltered housing** by Tivoli Services. For Contractors details see [Appendix 11: Contact Details](#).

### 3.9 WSCC Highways winter service

WSSC Highways winter service is restricted to:

- bulk purchase and storage of salt
- filling salt bins and delivering bulk bags when resources permit
- issuing farmers with snow ploughs
  - pre-treatment of selected roads
- reactive treatment of roads when resources permit
- monitoring local weather forecasts
- issuing a daily decision regarding action(s) to be taken
- provide advice and training

WSSC does not undertake any of the following:

- treat footways, cycleways or precincts as a precautionary measure
- treat private, third party or non-highway land
- refill salt bins or replace Hippo Bags when salt or grit stocks are critical
- fund farmers to clear additional road over and above the agreed local roads without prior approval

#### **Roads treated by WSSC and criteria for salting highways**

The precautionary salting network for carriageways consists of the 'County Strategic Network' as defined in the Local Transport Plan for West Sussex plus carriageways which satisfy one or more of the following criteria:

- Major Road Network, made up of 'A' and 'B' class carriageways
- advisory Lorry routes
- access to emergency services
- access to hospitals, especially those with A&E
- transport hubs
- key train stations
- bus depots and garages
- busy bus routes
- key infrastructure, including ports, water treatment works, electric generation sites etc.
- access roads connecting communities

WSSC Highways have agreed to grit the access road to the Council's Harwood Road Depot.

### 3.10 Contractors

Contractors support may be available from (for contact details see [Appendix 11: Contact Details](#)):

- MH Kennedy & Son Ltd (contractor)
- Richard Kennard Plant Hire T/A Sussex Manures (contractor)
- Tivoli Services (contractor)

## **1. Introduction**

### **1.1 The purpose of the Plan**

The policy has four key purposes:

1. To explain the County Council's Winter Service Duties and Powers.
2. To explain how these are achieved.
3. To ensure all staff and contractors involved in Winter Service understand their roles and responsibilities in delivering value for money to West Sussex residents; and
4. To inform anyone not normally involved or new to Winter Service.

### **1.2 The County Council's Legal Duties and Powers for Winter Service**

The Highways Act 1980 sets out the main duties of Highway Authorities in England and Wales. In particular, section 41 imposes a duty to maintain highways maintainable at public expense. The County Council, as a Highway Authority (West Sussex Highways), has a duty to maintain the public highway in West Sussex. This does not include the A23 and A27 trunk roads or the M23. These are the responsibility of Highways England.

Section 58 provides for a defence against action relating to alleged failure to maintain on grounds that the authority has taken such care as in all the circumstances was reasonably required to secure that the part of the highway in question was not dangerous for traffic.

The statutory basis for Winter Service in England and Wales is addressed through section 41(1A) of the Highways Act 1980. This states, *"In particular, a highway authority are under a duty to ensure, so far as is reasonably practicable, that safe passage along a highway is not endangered by snow or ice."*

Section 150 of the Highways Act 1980 also imposes a duty upon authorities to remove any obstruction of the highway resulting from 'accumulation of snow...'.

In addition, the Traffic Management Act 2004 placed a network management duty on all local traffic authorities in England. It requires authorities to do all that is reasonably practicable to manage the network effectively to keep traffic moving. In meeting the duty, authorities should establish contingency plans for dealing promptly and effectively with unplanned events, such as unforeseen weather conditions, as far as is reasonably practicable.

Recommendations and advice for meeting obligations are given in the Road Liaison Group document, "Well Managed Highway Infrastructure – A Code of Practice". This states, *'Given the scale of financial and other resources involved in delivering the Winter Service, it is not considered reasonable either to:*

- *Provide the service on all parts of the network; and*
- *Ensure carriageways, footways and cycle routes are kept free of ice or snow at all times, even on the treated parts of the network.'*

## **2. Winter Service Plan**

### **2.1 The Aim of Winter Service**

Authorities should adopt a plan for Winter Service in accordance with the Code of Practice 'Well Managed Highway infrastructure', which supports wider objectives for transport, integration, accessibility, and network management. When formulating the plan, issues considered include:

- Network resilience
- Treatment of facilities for public transport users.
- Treatment of facilities for road users.
- Treatment of facilities for walking and cycling.
- Treatment for transport interchanges.
- Treatment for promoted facilities such as community or leisure centres.
- Extent of priority for emergency services.
- Extent of priority for key public services and critical infrastructure.
- Extent of priority for vulnerable users.
- Resilience of Winter Service resources; and
- Other local circumstances.

### **2.2 The Winter Service – Overview**

Careful planning will result in a more resilient Winter Service and reduce the risk in the delivery of the Service during normal and severe winter conditions. It also has the potential to deliver the Service in a more efficient way. This includes the management of salt stocks and resources such as fuel, plant, and labour.

It is the policy of West Sussex County Council, via the Operational Contractor, to provide a service that:

1. Salts a network of identified carriageways (The Winter Service Network) to assist in the prevention of ice forming or snow accumulating.
2. Spot salt other roads, selected footways, and cycleways to assist in the removal of the winter hazard where deemed necessary and where resources allow.
3. Maintain, so far as is reasonably practicable, safety and traffic flows during snowfall by salting and ploughing the Winter Resilient Network. The Winter Resilient Network is smaller than the Winter Service Network and is based on defined priorities for treatment in the event of heavy snowfall. Generally, dual carriageways and multi-lane roads will be driven and treated in the nearside lane only.
4. Following snowfall, restore normality on a priority basis to its carriageways, footways, and cycleways as soon as possible.
5. The Winter Service operational period in West Sussex is from 1<sup>st</sup> October to 30<sup>th</sup> April. Outside of this period, extraordinary winter events are dealt with via normal contract procedures.

### **2.3 The Winter Service Network**

The Winter Service Network consists of roads where precautionary salting is carried out to assist in the prevention of the formation of ice or snow accumulation. Annex 'A' details the criteria for inclusion.

The Head of Local Highway Operations, Winter Service Manager or nominated officer, will instruct the Operational Contractor to undertake 'spot salting' of areas in response to local conditions where resources allow. Any decision to undertake 'spot salting' will be recorded and passed immediately to the Operational Contractor.

Given the scale of financial and other resources involved in delivering the Winter Service, it is not considered reasonable either to:

- Provide the service on all parts of the network; and
- Ensure carriageways, footways and cycle routes are kept free of ice or snow at all times, even on the treated parts of the network.
- Positively respond to all ad-hoc requests to spot salt locations not included on the Winter Service Network.

### **2.4 Winter Resilient Network**

As part of contingency planning West Sussex County Council has defined a minimum winter network called the Winter Resilient Network.

The Winter Resilient Network is the extent of the Winter Service Network that will be treated and/or ploughed in the event of heavy snowfall. Generally, dual carriageways and multilane roads will be driven and treated in the nearside lane only.

The Winter Resilient Network includes:

- Major Road Network, made up of 'A' and 'B' class carriageways.
- Access to emergency services.
- Access to hospitals, especially those with A&E.
- Principal public transport hubs.
- Key train stations.
- Bus depots and garages.
- Main bus routes
- Key infrastructure, including ports, water treatment works, electric generation sites etc.; and
- Connectivity between major communities.

It must be reiterated that given the scale of financial and other resources involved in delivering the Winter Service, it is not considered reasonable either to:

1. Provide the service on all parts of the network; and
2. Ensure carriageways, footways and cycleways are kept free of ice or snow at all times, even on treated parts of the network.
3. Positively respond to all ad-hoc requests to spot salt locations not included on the Winter Service Network.

## **2.5 Priorities for Maintaining Safety and Traffic Flow during Extreme Weather Events**

Keeping the highway safe and passable during extreme weather events is a dynamic situation that requires the Head of Local Highway Operations, Winter Service Manager or nominated officer to constantly monitor and to ensure resources are mobilised in order to respond to changing circumstances. In extreme conditions, when even driving a gritting lorry is considered hazardous, salting operations may be temporarily suspended until conditions improve.

## **2.6 Contingency planning**

The Winter Service Network is salted on a precautionary basis whenever temperatures are predicted to fall to a level where ice may form. In the event of heavy snowfall or other external issues impacting normal operations the following contingency plans may be invoked:

In the event of heavy snowfall, treatment may be reduced to the Winter Resilient Network

In the extreme event that weather and limited staff availability (for example high levels of sickness) then a decision may need to be made to reduce the area treated to key carriageways.

The trigger point for reducing salting operations to the Winter Resilient Network may vary depending on the severity of prevailing conditions at the time.

## **2.7 Road Closures**

Under certain circumstances road closures may be required for public safety. The County Council Highways (Local Highway Operations) and the Traffic Manager, Street Works Team, will work with the Police when considering such closure in situations such as:

- Roads become impassable.
- Road conditions become excessively hazardous; and
- Closing them would facilitate better overall achievement of Winter Service objectives.

Section 64 of the Road Traffic Regulations Act 1984 grants the Police power to impose restrictions on the movement of traffic. Under more difficult conditions, Sussex Police may be requested to hold back certain vehicles while ploughing and/or salting takes place.

In all instances of road closures, the Head of Local Highway Operations, Winter Service Manager or nominated officer, will be responsible for arranging the provision and deployment of appropriate diversionary signing to facilitate minimum disruption to traffic flow as far as reasonably practicable.

## **3. Precautionary Salting**

### **3.1 The Objective of Precautionary Salting**

Precautionary salting is undertaken in order to:

- Assist in the prevention of moisture turning to ice.
- Assist in the prevention of heavy deposits of Hoar Frost turning to ice; and
- Assist in the prevention of the accumulation of snow and to help facilitate its subsequent removal on agreed routes.

### 3.2 Decision Process

A weather forecast is provided to the County Council and Operational Contractor by mid-day every day. The Operational Contractor, in conjunction with the Head of Local Highway Operations, Winter Service Manager or nominated officer, is then responsible for the decision to undertake precautionary salting of the Winter Service Network or to place personnel on standby. Guidance is issued to decision makers and is contained in Annex B of this document.

If the weather information systems are non-operational and the temperature is seen to be falling, the Operational Contractor's Responsible Officer should notify the Head of Local Highway Operations, Winter Service Manager or nominated officer and instigate treatment based on experience and local knowledge. Where rain is forecast the decision to salt should be delayed as long as reasonably possible; however, where there are specific forecasts of 'freezing rain' salting should be undertaken even on dry roads or during rain.

The Operational Contractor's Responsible Officer shall record all daily decisions, and amendments, via the County Councils forecasting provider, Metdesk. The 'Decision Board' is shown in Annex C. The completed document is then emailed to appropriate persons listed on the Distribution List. Metdesk retains every decision on file for future reference.

### 3.3 Salt Spreading – Rates of Spread

Recommended Spread Rates – dry salting (grams per meter<sup>2</sup>)

Road surface temperature (RST) when frost/ice is predicted	Dry/damp road	Wet road
At or above 1.0°C	8	8
-1.1°C to -2.0°C	8	8
-2.1°C to -3.0°C	8	13
-3.1°C to -4.0°C	9	17
-4.1°C to -5.0°C	11	21
-5.1°C to -7.0°C	15	30
-7.1°C to -10.0°C	20	40
-10.1°C to -15.0°C	28	56

### 3.4 instructions to undertake Salting Operations

During the Winter Service operational period, instructions to undertake salting operations, or to initiate standby procedures, should be issued by the Operational Contractor's Responsible Person before 1500 hours daily. In the event of 'No Action Required', this instruction should also be recorded and issued.

Subsequent changes to the instructions should be issued using the same procedure.

Following treatment, the next working day the Operational Contractor is required to send a copy of data for each treated route to the Head of Local Highway Operations, Winter Service Manager or nominated person to include:

- Date and time of salting operation.
- Spread rate used.
- Vehicle registration and name of driver.
- Amount of salt used.
- Time salting operation commenced.
- Time salting operation finished; and
- Any notes, observations (e.g., diversion routes followed, untreated sections, blast treated sections etc.).

The Operational Contractor is also required to update the electronic salt stock volumes after each treatment event, so that the stock levels can be monitored, and additional stock ordered to ensure service continuity.

## **4. Salting and Ploughing in Snow**

### **4.1 Communications**

During periods of snow, communications are key for the effective deployment of appropriate resources. Information should be gathered from a variety of sources including the emergency services and Operational Contractor, to include:

- The depth of settling snow.
- The location and extent of drifting snow; and
- Road closures and other restrictions on movement caused by obstructions such as abandoned vehicles etc.

During periods of heavy snowfall, the County Press Officer will remain the point of contact for the media. The Highways Customer Service Hub and Customer Service Centre should be kept informed of any developments in order to deal with initial enquiries from members of the public.

### **4.2 Salting and Snow Ploughing**

In snow conditions the typical rate of salt spread is 20 to 40 grams per metre<sup>2</sup>. The actual spread rate will depend on the severity of snowfall and the ambient temperature.

Simultaneous ploughing and salting should commence when snow reaches a depth of 75cm to 100cm (3 to 4 inches).

Ploughing may be required in lighter snowfall where there is a potential risk of drifting or other localised obstructions.

#### **4.3 Short Term Snow Events and Emergencies**

In severe snow events the Assistant Director of Highways, Transport and Planning (the Director), or Head of Local Highway Operations, may decide it is necessary to open the Emergency Control Room at County Hall, Chichester, a Highway Depot or virtually by Microsoft Teams, when there is a need to re-distribute resources across the County or when network availability is greatly reduced.

Short term snow events may not be severe or be expected to last for periods long enough to require the use of the Emergency Control Centre.

When deciding to reduce the network to the Winter Resilient Network, the Assistant Director may decide to prepare the Emergency Control Room as the base from which Winter Service operations may be controlled. The Assistant Director will be responsible for liaison with the County Emergency Planning Officer under these circumstances. Liaison with the Customer Service Centre and Highways Customer Service Hub throughout the operational phase will also be required.

The Assistant Director will remain responsible for the overall operation of the Emergency Control Room. Assistance will be provided by members of the Local Highways Operations staff, during normal working hours, and at other times as directed by the Director throughout the period of the emergency.

In the event of the scale of the emergency escalating so as to affect other County Council services, overall responsibility may devolve to the County Emergency Planning Officer.

#### **4.4 Snow Clearance**

The objective is to keep as much of the highway network open and safe as is reasonably possible. Where conditions mean it is not possible to keep all of the network open, resources will be focused where they will be of most benefit. This will incorporate a minimum network known as the Winter Resilient Network.

Where conditions are such that resources available through the Operational Contractor are insufficient to deal effectively with lying snow, the Head of Local Highway Operations, Winter Service Manager or nominated officer, may call on and co-ordinate additional resources from Borough and District Councils, Supply Chain partners, Parish/Town Councils, local farmers, and other contractors as appropriate.

#### **4.5 Checking the Network for Damage**

The Head of Local Highway Operations, Winter Service Manager or nominated officer, are responsible, so far as it reasonably practicable, for planning that highway-maintained drains are clear to help clear water from thawing snow.

During severe weather conditions, grit that has been deposited on the highway may be construed as litter under the terms of the Environmental Protection Act 1990. However, spreading salt and grit is considered a legitimate and reasonable duty of the Highway Authority and therefore is not actionable under the terms of the Act. The responsibility to clear these materials therefore rests with District or Borough Councils as part of their street cleansing duties.

Roads shall be regularly checked via formal and ad-hoc inspections for frost heave or other damage. In the event of frost heave, arrangements should be made to close the affected roads to heavy traffic in order to prevent further damage until repairs are completed.

#### **4.6 Monitoring Service Delivery**

The Head of Local Highway Operations, Winter Service Manager or nominated officer, is responsible for communicating requirements for continuous salting, to the Assistant Director.

During prolonged periods of snow or when the severity of the weather necessitates or is likely to necessitate, continuous salting, the Head of Local Highways Operations, Winter Service Manager or nominated officer, should report conditions on the highway to the Director as follows:

- On request.
- Where temperatures have, or are likely to fall, below freezing for 48 hours or more.
- By 09.30 hours when snow has fallen or settled overnight.
- Weather reports and forecasts; and
- Any other pertinent information.

These details will enable the Director to make informed judgements when deciding whether to reduce essential operations to the Winter Resilient Network.

#### **5.1 Monitoring Effectiveness and Quality**

Prior to the commencement of the Winter Service Period, salting operations are checked and all routes are driven to ensure there are no issues and timings are within acceptable levels. This is known as Operation Snowflake.

During the Winter Service Period, a range of Key Performance Indicators are recorded and monitored to ensure operations are running correctly. This will ensure the aims of this Policy are being achieved.

#### **5.2 Winter Preparedness**

To prepare for winter:

- Salting routes are planned to minimise wasted travel and ensure response time targets may be met.
- Salt barns are situated at our three depots and help to reduce salt loss by keeping stock dry which enables more effective spreading; and
- We fill salt bins before the start of the Winter Service Period, these are managed locally under Local Parish & Town Council's Winter Management Plans
- Where requested we provide salt for District & Borough councils who may, subject to resources, salt high footfall areas such as shopping precincts during icy conditions.

There is a process of annual review of the winter service.

We work with neighbouring authorities to share best practice and consider requirements for mutual aid in the event of significant disruption to service.

Some Local Parish and Town Councils operate “Local Winter Management Plans”. These include things such as:

- Monitoring salt bin levels; and
- Requesting and use of bulk bags of salt for local use.
- Localised salting by volunteers
- Agreement with local farmers to assist where significant snowfall requires clearing (5cm deep), and/or on request from the County Council.

## **ANNEX A**

### **Criteria for Inclusion in the Winter Service Network**

The National Code of Practice requires authorities to formally approve and adopt policies and priorities for Winter Service, which are coherent with wider objectives for transport, integration, accessibility, and network management. This includes strategies for public transport, walking, cycling and the wider strategic objectives of the Council.

Issues that have been considered include:

- Network resilience
- Treatment of facilities for public transport users.
- Treatment of facilities for road users.
- Treatment of facilities for walking and cycling.
- Treatment for transport interchanges.
- Treatment for promoted facilities such as community or leisure centres.
- Extent of priority for emergency services.
- Extent of priority for key public services and critical infrastructure.
- Extent of priority for vulnerable users.
- Resilience of Winter Service resources; and
- Other local circumstances.

In West Sussex the Winter Service Network includes:

- Major Road Network, made up of 'A' and 'B' class carriageways.
- Advisory Lorry routes.
- Access to emergency services.
- Access to hospitals, especially those with A&E.
- Transport hubs.
- Key train stations.
- Bus depots and garages.
- Busy bus routes
- Key infrastructure, including ports, water treatment works, electric generation sites etc.; and
- Access roads connecting communities.

## **ANNEX B**

### **Action Decision Guidance**

The following guidance is issued to assist the Decision Makers and other nominated decision makers.

These matters should be considered wherever possible but not at the expense of safety. All decisions require continuous monitoring, recording and review.

### **Confidence in the Forecast**

The forecast of hazards are given a 'confidence' rating. 'High' and 'Moderate' ratings should generally result in planned salting while 'Low' confidence should normally result in 'Standby'. Reassessments should be considered as appropriate.

### **Timing of Salting Runs**

Hazards, other than snow, predicted to occur before midnight should ordinarily result in salting being undertaken in the evening. Wherever possible this will be undertaken after the evening peak traffic flow but must be completed before the predicted onset of the hazard, even if this means salting during peak traffic flow.

Hazards, other than snow, predicted to occur after midnight should normally result in salting in the early morning, however, salting must be completed before the predicted onset of the hazard.

Salting for snow should be timed for completion just before its onset.

Salting should be delayed until any forecast rain has ceased unless rain is predicted during periods of freezing.

### **Residual Salt**

The Decision Maker may take account of the presence of residual salt in making their decision.

### **Impact on Normal Working Hours**

The Decision Maker will be aware that timing affects an operative's availability for normal work under the Working Time Directive. In general disruption will be negligible if salting is carried out at 1800 hours.

## Salting Decision Matrix

Salting Decision Matrix	Road Surface Temperature – may fall below freezing	Road Surface Temperature – expected to fall below freezing				
Predicted Road Condition	<u>No</u> Rain, Hoar Frost, Fog	<u>No</u> Rain, Hoar Frost, Fog	<u>Possible</u> Rain, Hoar Frost, Fog	<u>Expected</u> Hoar Frost, Fog	<u>Expected</u> Rain before Freezing	<u>Expected</u> Rain during Freezing
<b>Wet</b>	Salt before frost	Salt before frost	Salt before frost	Salt before frost	Salt after rain stops (see note C)	Salt before frost (see note D)
<b>Wet Patches</b>	Salt wet patches before frost (see note A)	Salt wet patches before frost (see note A)	Salt before frost	Salt wet patches before frost (see note B)	Salt after rain stops (see note C)	Salt before frost (see note D)
<b>Dry</b>	No action (see note A)	No action (see note A)	Supervisor to make decision based on latest data and local knowledge, crews standby in depots awaiting instructions	Salt before frost (see note B)	Salt after rain stops (see note C)	Salt before frost (see note D)
<b>Pre-salted within last 24 hours with no rain since</b>	No action (see note A)	No action (see note A)	Supervisor to make decision based on latest data and local knowledge, crews standby in depots awaiting instructions	Supervisor to make decision based on latest data and local knowledge (see note A)	Salt after rain stops (see note C)	Salt before frost or Supervisor to make decision based on latest data and local knowledge, crews standby in depots awaiting instructions (see note D)

## Notes

- A. Possibility of water running across carriageways washing off previously deposited salt, e.g. from fields. Monitor and consider salting at other times e.g. evenings and mornings.
- B. Hoarfrost may result in considerable deposits of frost, generally in early morning. Salt deposited prior to onset may be dispersed and thus become non-effective. Ideally treat just as hoarfrost is forming but it is recognised this is not always possible. May require salting on a dry road prior to, and as close as possible to, the expected onset of the condition. Where hoarfrost is forecast at other times then timing of salting operations may need to be adjusted accordingly.
- C. If, under these conditions, rain has not ceased by early morning then crews should be called out and action initiated as the rain ceases.
- D. This is a most serious condition as rain will freeze on contact with running surfaces and full pre-treatment is required even on dry roads. Close and continuous monitoring is required throughout the danger period.
- E. Weather warnings are often qualified by altitude. Different actions may be required from various depots.

Winter Service Network

## Winter Resilient Network

## Annex R1 - Restricted Key Contacts

Service / Name	Telephone Number	Address	Additional Information
Keith Anscombe	07900 411 078		Security Contractor

### Restricted

The list below will help you keep track of whom you have issued any restricted material too. This will also assist you should any data protection issue arises as you will know exactly where and who has the access to any restricted/sensitive information that needs to be protected.

Organisation	Contact details	Number issued

## **Annex R2 - Vulnerable Groups within the Community (Restricted – Personal Information)**

Vulnerable people lists are constantly changing and therefore it would not be viable for Communities to permanently hold a list. Emergencies can also make people vulnerable who are not normally and therefore any details should be collated following a major incident. Information should be provided to the emergency services and welfare agencies as a priority. The Community list should be secondary.

The Parish Council will not hold personal information regarding vulnerable members of the Community. The Parish Council will instead liaise with Voluntary and Statutory Agencies who provide support services to vulnerable individuals to offer its support as required.

Primarily this would be the:

West Sussex County Council Community Hub – 0330 2227980

Age UK West Sussex – 0800 019 1310

West Sussex MIND – 01903 277000
